Part III DETAILED ACTION

Notice to Applicant(s)

This application has been examined. Claims 1-8, 10-22 and 24-34 are pending.

Response to Amendment

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

1. Claims 1, 4-7, 15, 18-21, 30-32 are rejected under 35 U.S.C. § 102(e) as being anticipated by Palanca et al. patent number 6,223,258 referred hereinafter "Palanca".

As for claims 1, 15, and 30, Palanca teaches a method and apparatus comprising routing a memory access from a processor core back into the processor core through a bus interface coupled to the processor core (see figure 2, processor core 208 accessing memory 210, 215, bus 240 and column 6 lines 33-67, wherein the processor core access memory 210 by dispatching the instructions stored therein to the execution unit 220 and return result back to the processor core 208).

As for claims 4-6, 18-20 and 31, Palanca teaches accessing SRAM memory (see column 3 line 5).

As for claims 7, 21 and 32, Palanca teaches routing a memory access from the processor core comprises routing a memory access from a digital signal processor core (see figure 1, CPU 110).

Allowable Subject Matter

2. Claims 2-3 and 16-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
3. Claims 8, 10-14, 22, 24-29 and 33-34 are allowable.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
